DOSAGE FORM

Oral paste

COMPOSITION

Cat Paste: Each 15 ml dial syringe contains 30 mg Nanozomal™ CBD+. *Preservative: Sodium benzoate 1% w/w, Other ingredients: glycerine, xanthan gum, soy lecithin, catnip hydrosol, flavouring (fish)*

(Nanozomal™ CBD+ nanoemulsion cannabidiol extracted from the hemp family: *Cannabis sativa*)

CLASS OF MEDICINE

29.13 Other

INDICATIONS

Only recently studies on the therapeutic potential of cannabinoids were undertaken. The method of action is focussed on receptor binding in the endocannabinoid system of the animal's body. Studies have shown that the use of CBD oil can assist in the management of minor pain and inflammatory conditions as well assist in situations which could cause minor anxiety such as a change of environment, introducing a new pet, travel, or the absence of the owner.

CONTRAINDICATIONS

If your cat suffers from a chronic medical condition only use this product under the supervision of your veterinarian. This product is contraindicated in pets with an allergic hypersensitivity to any of the ingredients. Contact your veterinarian right away if this applies to your cat.

WARNINGS AND SPECIAL PRECAUTIONS

Do not exceed the recommended dosage unless otherwise prescribed by your veterinarian.

Supplements should not replace a balanced diet.

SIDE EFFECTS

Not all side effects are included in this leaflet. Should the general health of your cat worsen while taking the medicine please

consult your veterinarian. Discontinue the use of this supplement if there is any sensitivity towards any of the ingredients. The most common side effects are allergic reactions, a rash on the skin, hives, itching, difficult breathing, swelling of the mouth, face, lips, or tongue. If you have questions about side effects, contact your veterinarian.

SYMPTOMS OF OVERDOSEAGE AND PARTICULARS OF ITS TREATMENT

Use only as directed. Do not exceed the recommended dose. Treatment is supportive and symptomatic. Should accidental overdose occur, discontinue the use, and consult your veterinarian.

DOSAGE AND DIRECTIONS FOR USE

Recommendation: Give the oral paste daily on an empty stomach for the cat to swallow. Do not give the cat any liquid or food for at least 15 minutes after dosing with the paste.

Do not exceed the daily recommended dosage. If you have missed a dose for one or more days, there is no cause for concern. Do not apply a double dose to make up for the forgotten doses.

	Weight range (kg)	Dosage
