CLASS OF MEDICINE

Veterinary Complementary Medicine

INDICATIONS

Although a lot of investigative work has been done on canabidiols, many of these studies have either been too small or inconclusive. Therefore, the method of action is currently not well defined.

Anecdotal evidence has shown that the use of CBD oil can assist in the management of minor pain and inflammatory conditions as well assist in situations which could cause minor anxiety such as a change of environment, introducing a new pet, travel or the absence of the owner.

CONTRAINDICATIONS

If your pet suffer from a chronic medical condition only use this product under the supervision of your veterinarian. This product is contraindicated in pets with an allergic hypersensitivity to any of the ingredients. Contact your veterinarian right away if this applies to your pet.

WARNINGS AND SPECIAL PRECAUTIONS

Do not exceed the recommended dosage unless otherwise prescribed by your veterinarian.

Supplements should not replace a balanced diet.

KEEP OUT OF REACH OF CHILDREN.

SIDE EFFECTS

Not all side effects are included in this leaflet. Should the general health of your pet worsen while taking the medicine please consult your veterinarian. Discontinue the use of this supplement if there is any sensitivity towards any of the ingredients. The most common side effects are allergic reactions, a rash on the skin, hives, itching, difficult breathing, swelling of the mouth, face, lips or tongue. If you have questions about side effects, contact your veterinarian.

SYMPTOMS OF OVERDOSEAGE AND PARTICULARS OF ITS TREATMENT

Use only as directed. Do not exceed the recommended dose. Treatment is supportive and symptomatic. Should accidental overdose occurs, discontinue the use and consult your veterinarian.

DOSAGE AND DIRECTIONS FOR USE

Shake gently before use.

Recommendation: Give the oral nanoemulsion daily on an empty stomach for the animal to swallow. Do not give the animal any liquid or food for at least 15 minutes after dosing with the nanoemulsion. Do not exceed the daily recommended dosage. If you have missed a dose for one or more days there is no cause for concern. Do not apply a double dose to make up for the forgotten doses.
